GUPČEVA HIŽA HIŽAKOVEC

Na zemljištu pod nazivom *Bekovo*, uz *Bekovu mlaku* podignuta je *Gupčeva hiža* koja svjedoči o teškoj, ali slavnoj prošlosti i tradiciji stubičkog kraja. Ona želi upravo taj ponosni, skromni, izmučeni, ali i radosni duh povijesti naših predaka pokazati u svojoj razigranoj malenkosti kojoj ne manjka ni sklada ni punine. Njezin izgled, veličina, namještaj i materijal kojim je građena govore o minulim vremenima naših predaka na koje smo ponosni i kojima zahvaljujemo.

GUBEC'S HOUSE HIŽAKOVEC

On the land called *Bekovo*, by the *Bekova mlaka* is *Gubec's house* raised and it testifies about a hard but famous past and tradition of the Stubica area: It wants to show exactly that proud, humble, tired but joyful spirit of the history of our ancestors in its playful littleness that doesn't lack harmony or fullness. Its looks, size, furniture and the material by which it was built, tell us about past times of our ancestors at which we are proud and to which we are thankful.
